KHUSHI Mehta

Frontend Developer

Passionate about developing and launching innovative web projects. Skillful in translating business needs into efficient technical solutions. Seeking to kick-start my career as an entry-level web developer with a reputable tech-driven company. Self-independent, reliable and friendly individual who works hard to achieve his goals.

PROJECTS

RESTAURANTLY PROJECT

- I have used Bootstrap v5.0 for this project.
- Focused on all custom code from scratch without relying much on js libraries and css frameworks.

TO DO LIST

- Created a to-do app or web page through JavaScript, HTML, and CSS.
- Used LocalStorage for storing temporary data.

HEALTHCARE

- Designed a responsive layout that adjusts to different screen sizes and displays specific content based on the device.
- Used offline storage.

SCUBA PROJECT

- Designed a responsive layout that adjusts to different screen sizes and displays specific content based on the device
- Used animation and work in detailing.

TECHNICAL LEAD FOR WEB TECHNOLOGIES-ELAN EVENT, ARENA

- Managed all web projects submitted by students, ensuring adherence to deadlines and quality standards.
- Organized displays for visitors, creating an engaging and informative experience.
